### **LISTING OF CLAIMS**

1. (Original) A flush toilet for a motor vehicle comprising:  
a bowl assembly defining a bowl and a discharge opening at a lower end of the bowl;  
a waste ball valve assembly mounted to the flush toilet for selectively opening and closing the discharge opening of the bowl assembly;  
a water valve assembly for selectively delivering a source of flush water to the bowl, the water valve assembly including a water valve operable in a water valve open condition and a water valve closed condition; and  
a common actuator for controlling both the waste ball valve assembly and the water valve assembly, the actuator movable from a first position to an intermediate position and from the intermediate position to a second position such that in the first position the waste ball valve assembly closes the discharge opening and the water valve assembly is in the closed condition, in the intermediate position the waste ball valve assembly closes the discharge opening and the water valve assembly is in the open position for adding water to the bowl, and in the second position the waste ball valve assembly opens the discharge opening and the water valve assembly is in the open position for flushing the bowl.
